

# EAGLE:

## Ancient inscriptions in the digital era

Silvia Orlandi

EAGLE Project Coordinator

Sapienza, University of Rome

# Computers are living the scientific labs

### 3. Don't do digital for the sake of digital.

- Figure out how digital impedes or advances your key objectives and goals

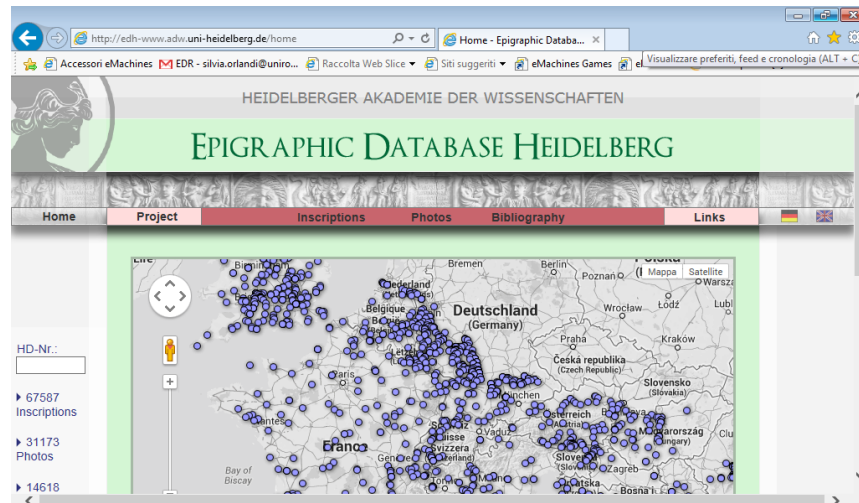

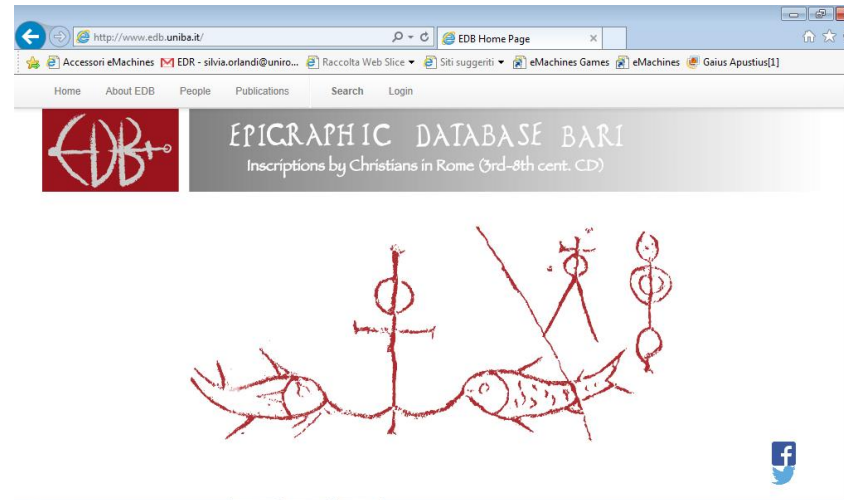

# To be really useful, a digital project must be...

- 1. reliable
- 2. up-to-date
- 3. as complete as possible
- 4. constantly open to any improvement

## Europeana 1989: We Made History!

Last week the Freedom Express started its journey through Eastern and Central Europe. Europeana joined this journey to trace the historical events of 1989, a year that transformed Europe.

Classical Greek and Latin culture is at the very foundation of modern European identity. From philosophy to architecture, geometry to law, a variety of contemporary subjects and disciplines have their roots in the classical world. Only a small fraction of the total production of Greco-Roman texts has survived to the present day, leaving wide gaps in the historiographical record of an epoch that is immensely relevant to our modern day lives.

The collections held by the EAGLE partners have been assembled with the two-fold criterion of historical-cultural significance and strong thematic unity.

EAGLE collections feature a great variety of inscriptions written in Greek, Latin and
